

Short Survey – Participant Information & Consent

What this is:

I'm doing a small research project as part of my PGCERT in Academic Practice at Chelsea College of Arts.

It looks at how storytelling can help design students and graduates find their voice and connect through creative practice.

What you'll do:

You're invited to answer a few short, anonymous questions on Mentimeter.

It takes about **5 minutes**.

- Your choice:

Taking part is **completely voluntary**.

You can **choose not to take part** or close the survey at any time.

Your answers are **anonymous** – no names or personal details are collected.

- **How your responses are used:**

Answers will be used only for this research project and shown **anonymously** in my final report or presentation. Data will be kept securely and deleted after the project ends.

By continuing to the survey, you confirm that:

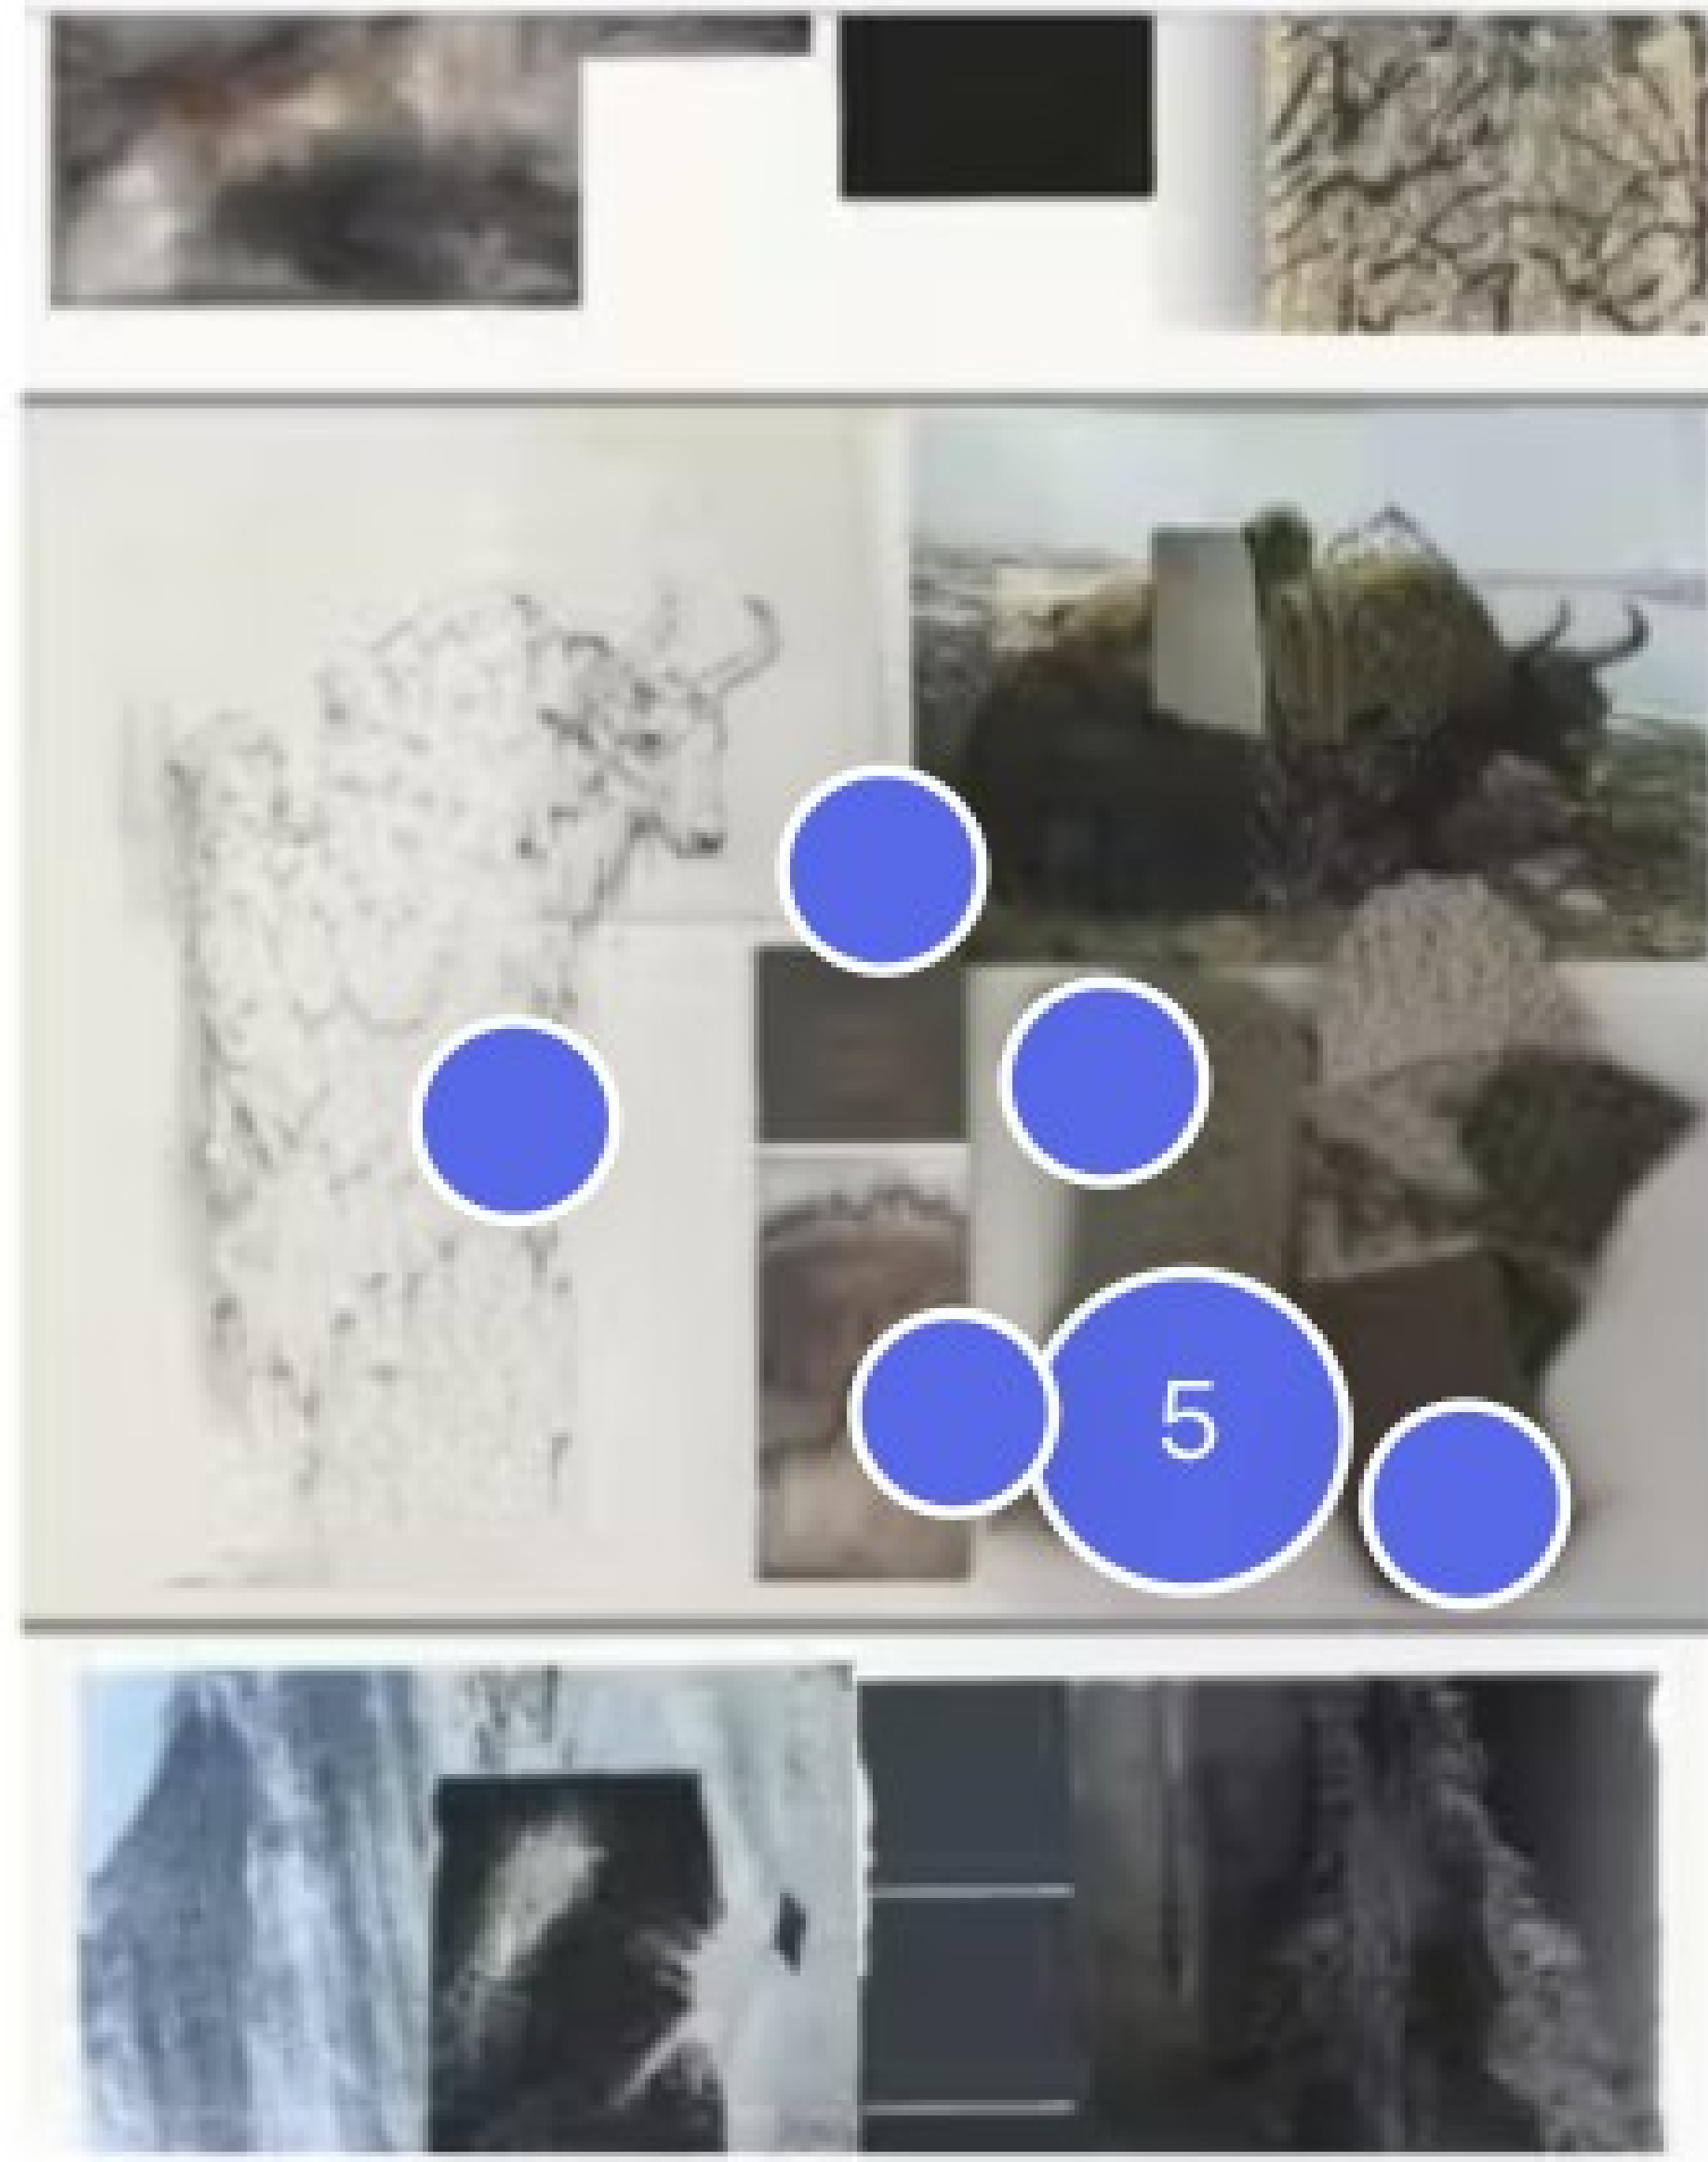

- ✓ You understand what the project is about.
- ✓ You know your participation is voluntary and anonymous.
- ✓ You are happy for your answers to be used in this research.

Thank you for sharing your thoughts and being part of the project!

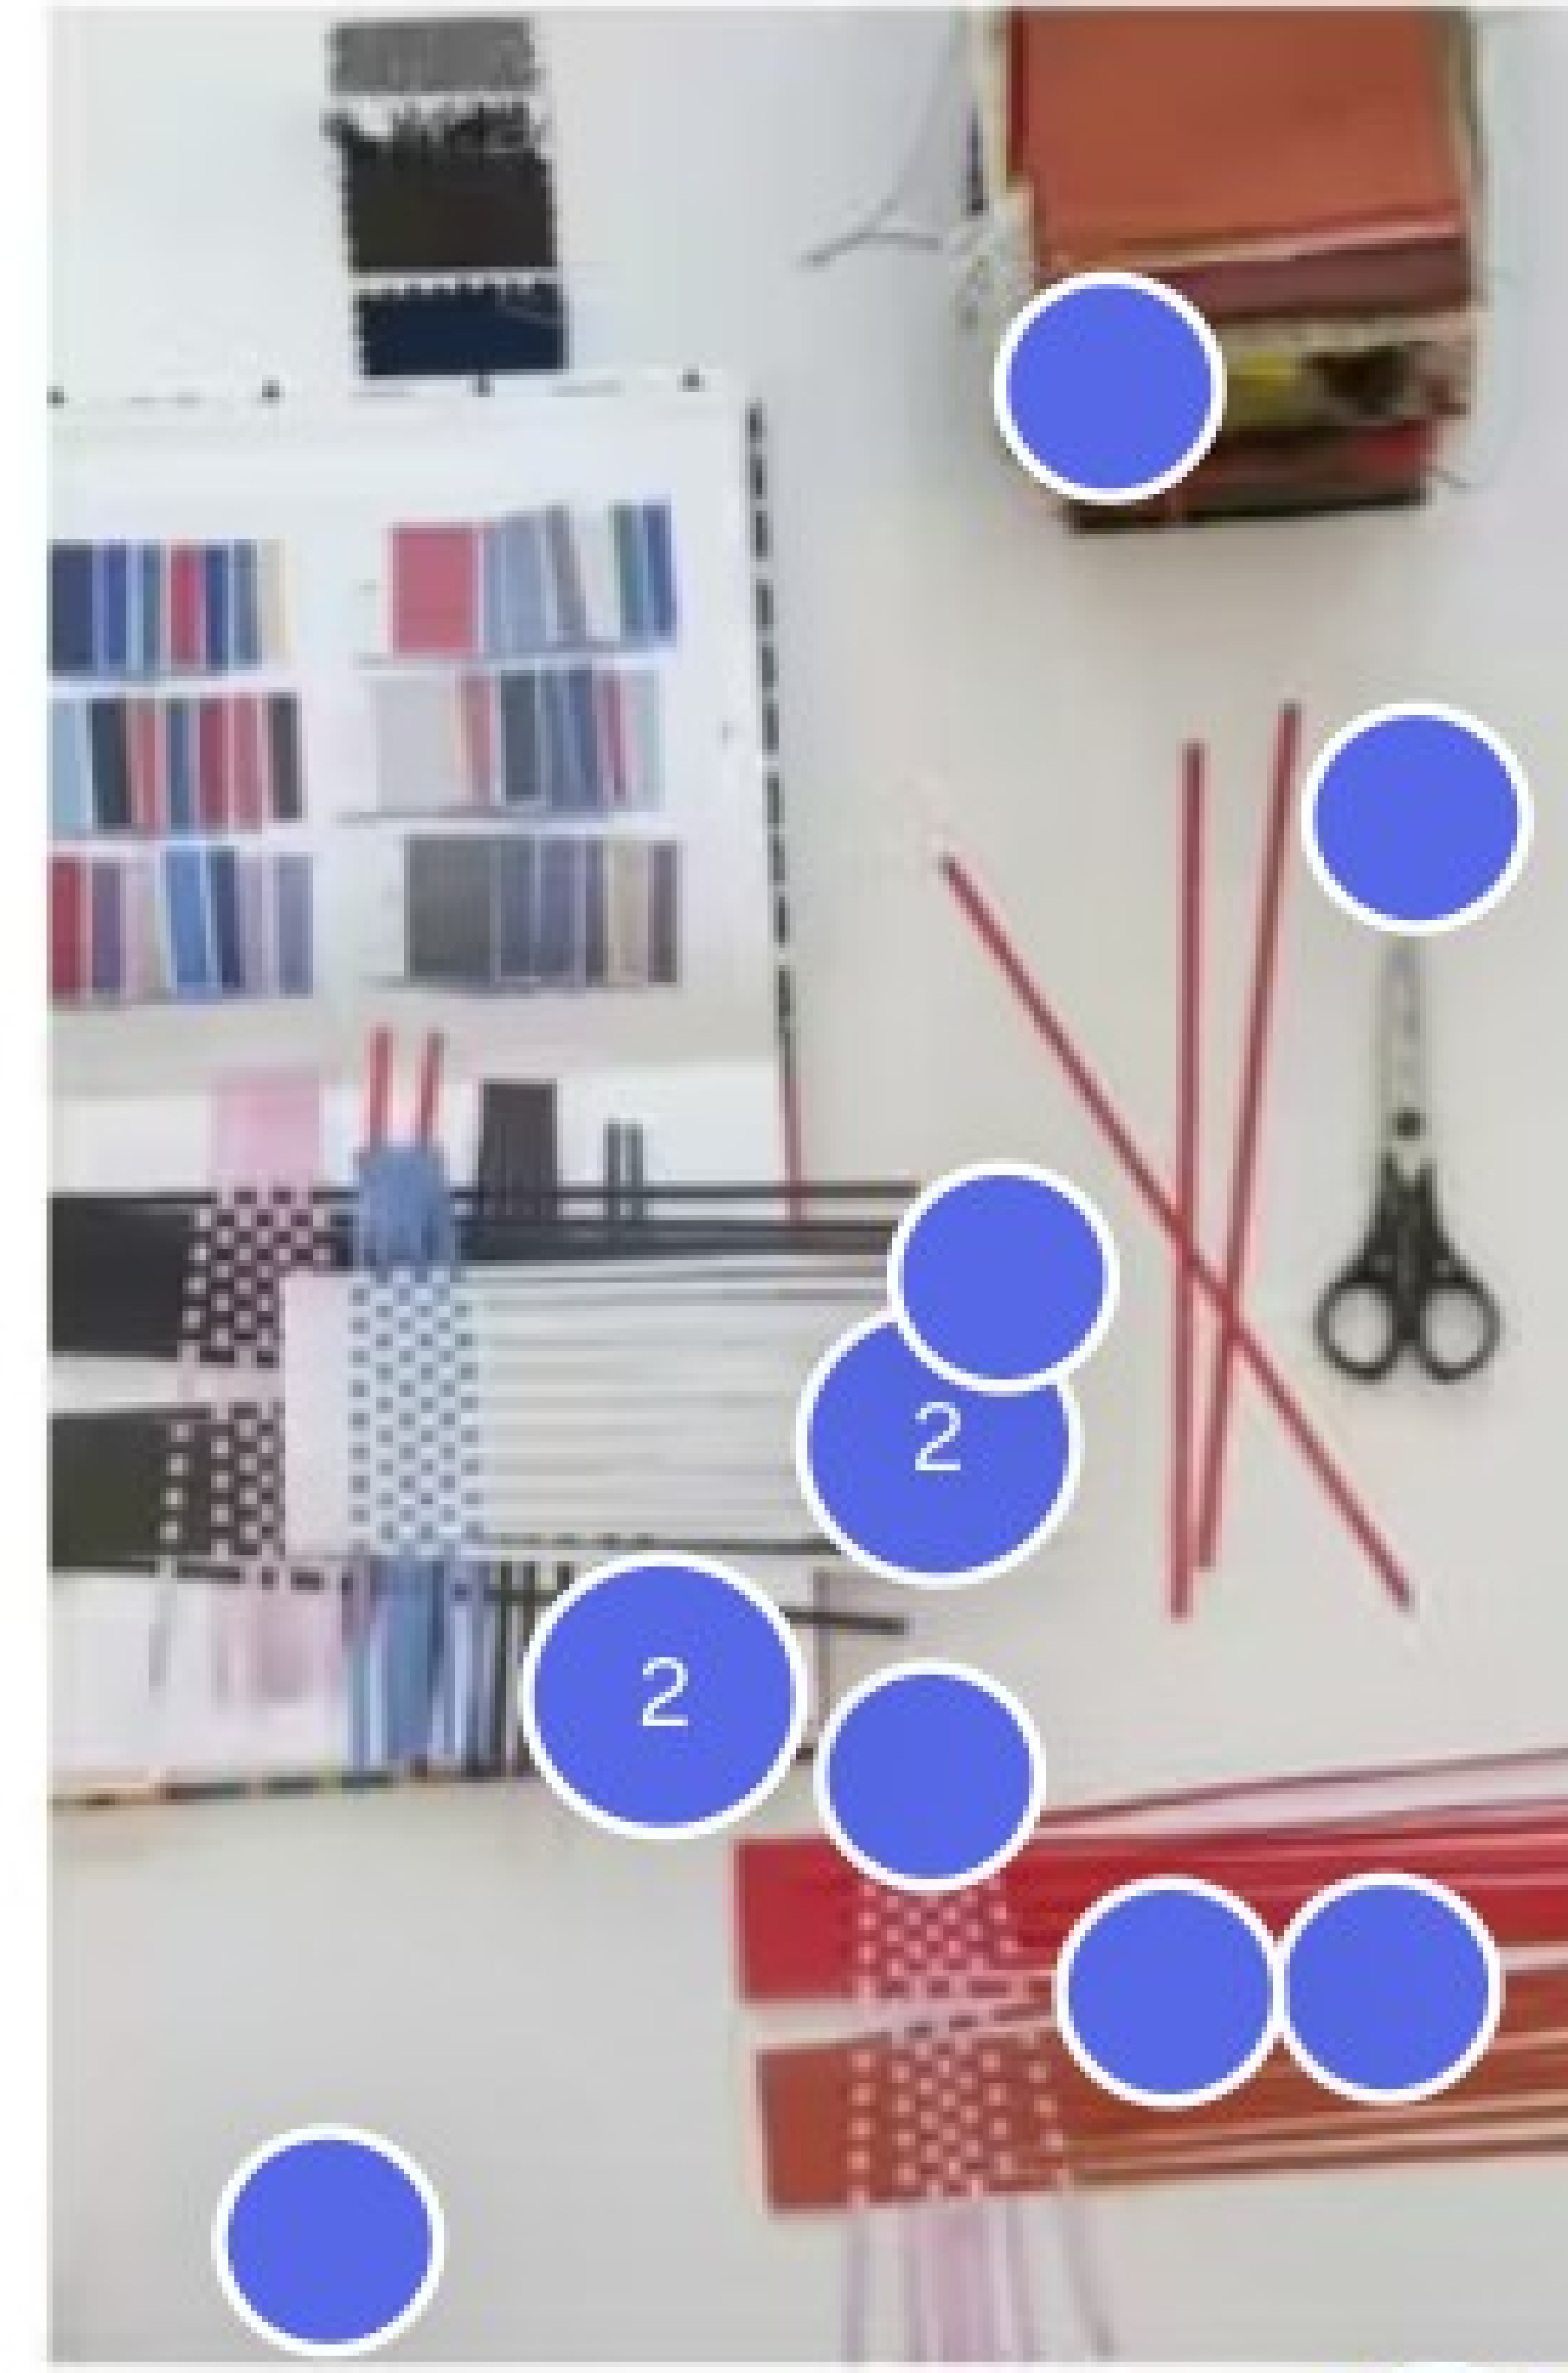

Do you enjoy using your phone or digital apps in workshops ?

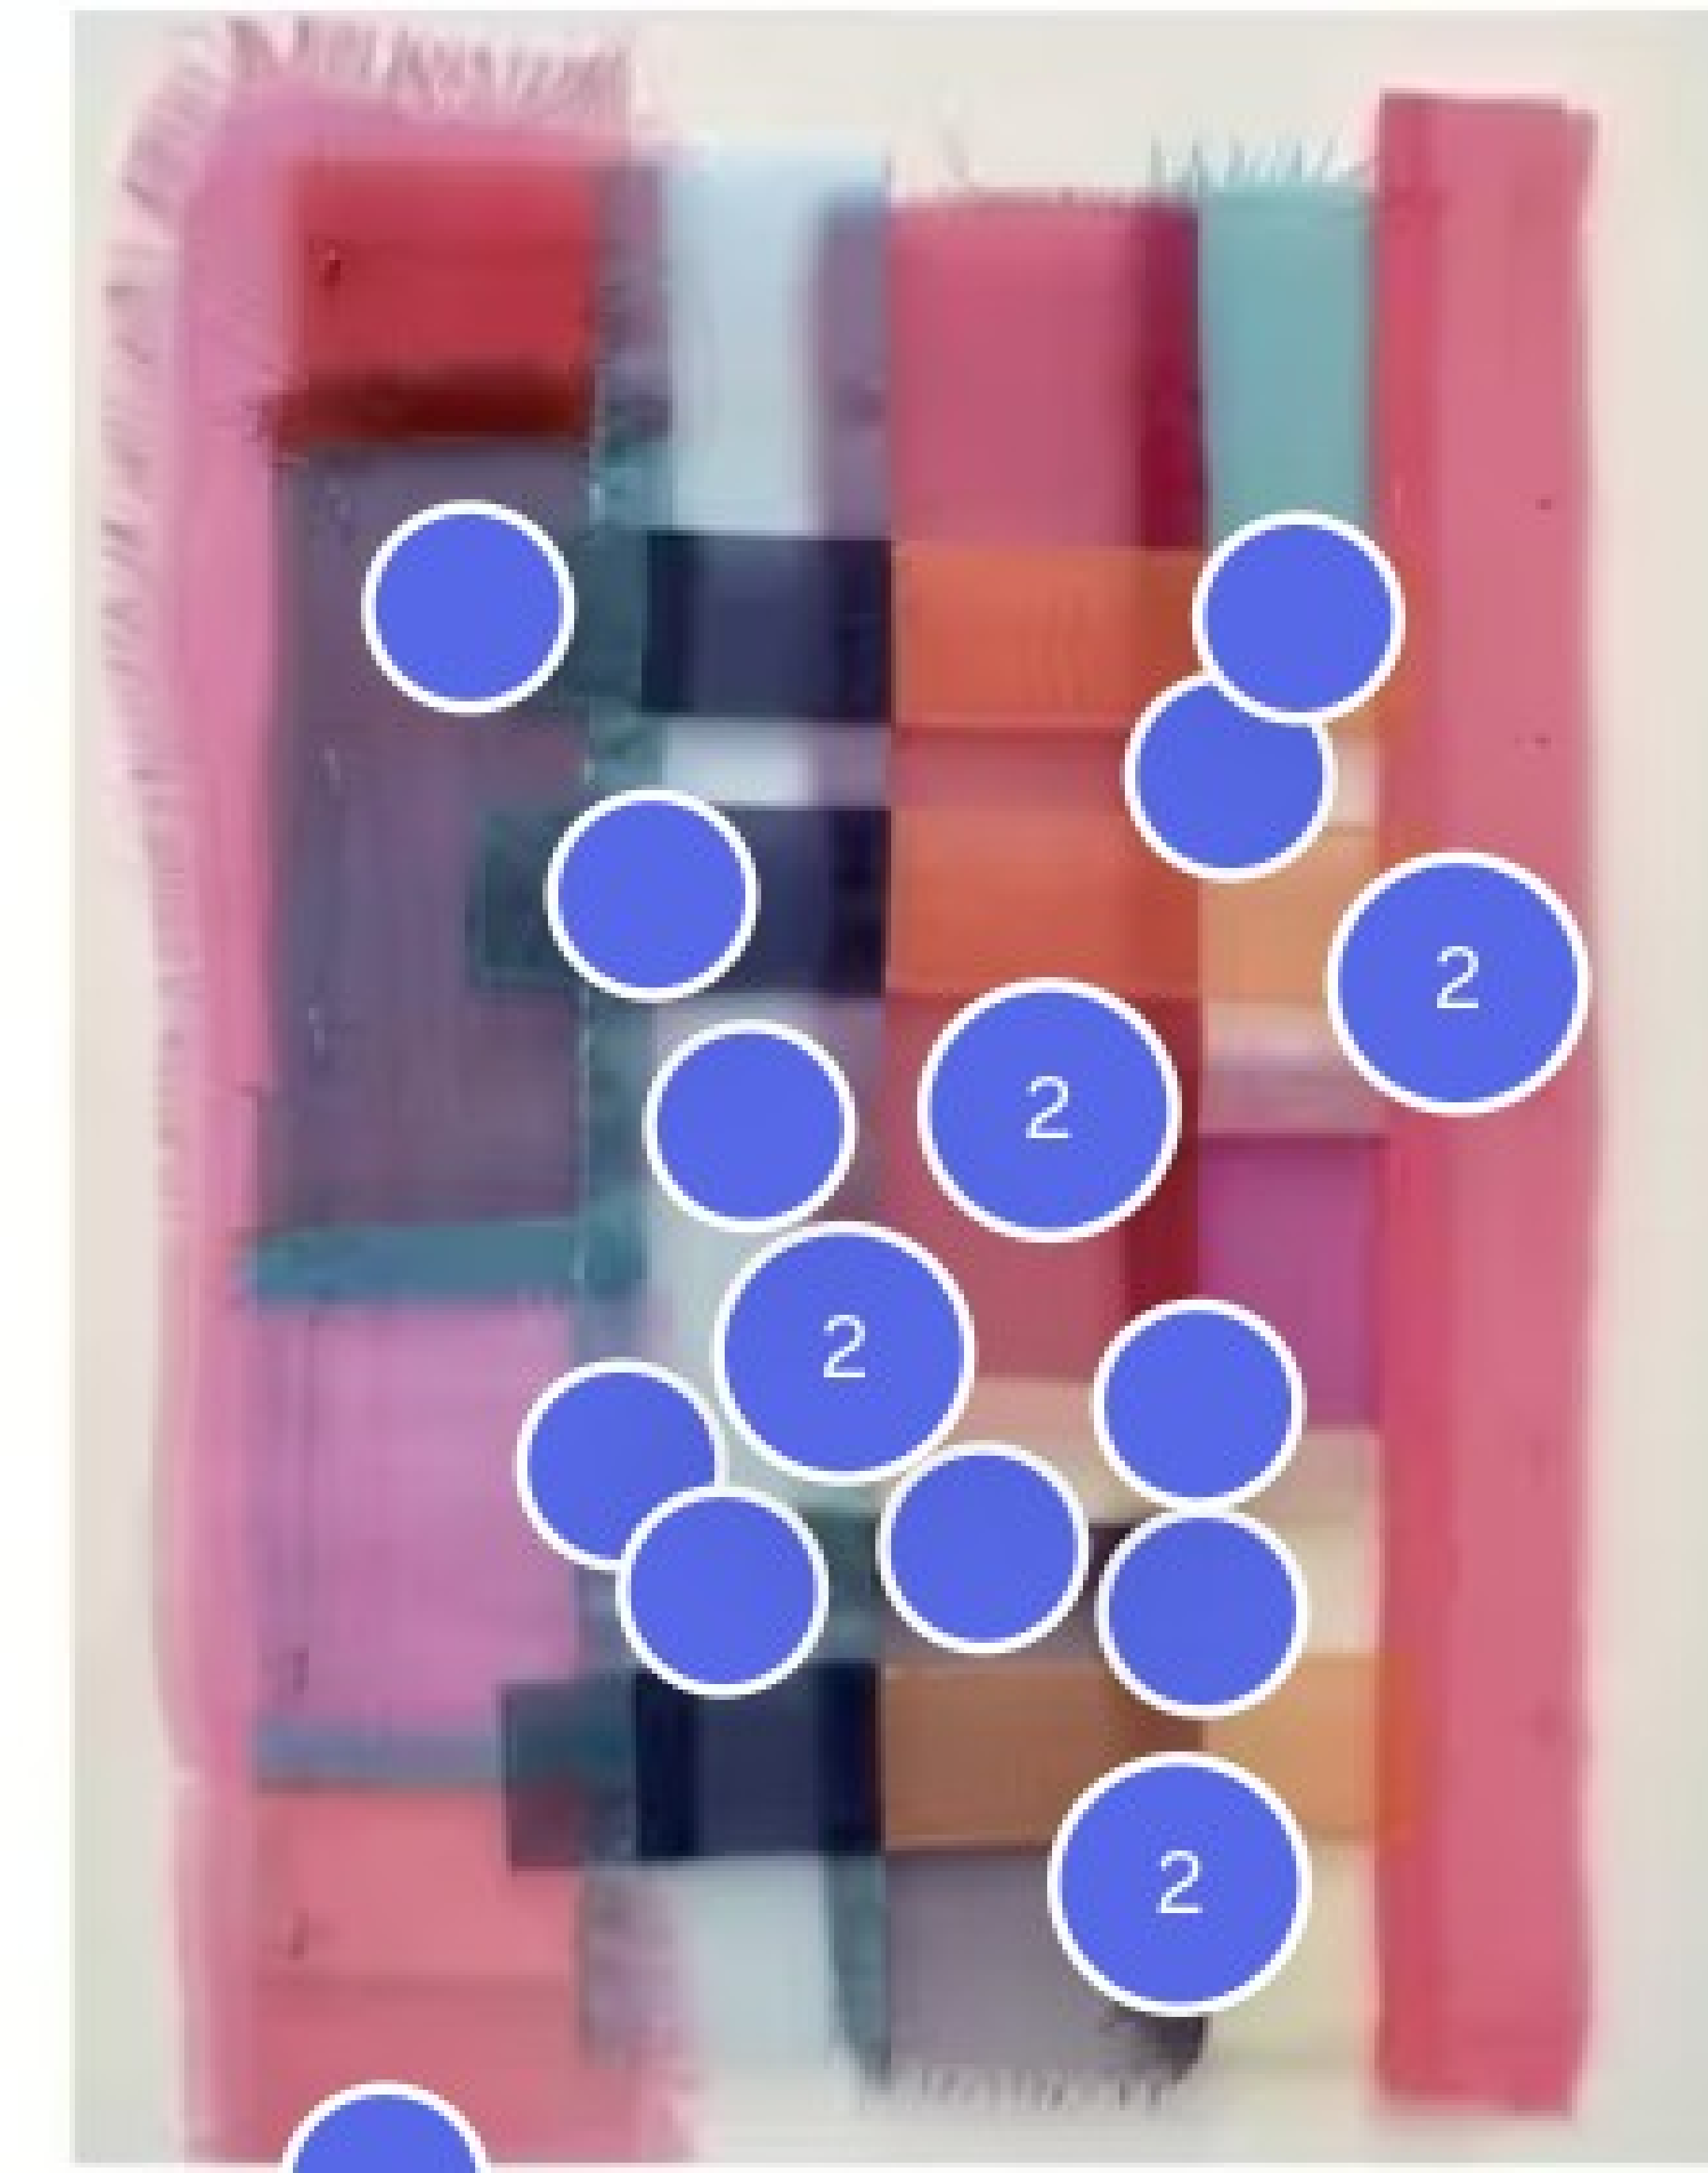

What are you interested in knowing more about?

Research

Design development

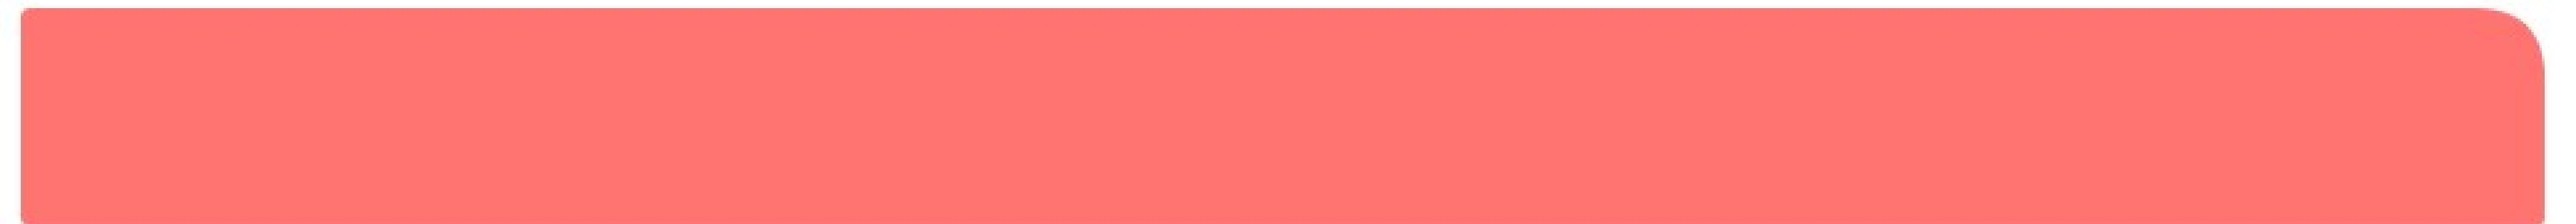

Sample Making

what would you like more sessions about?

Materials

1.

New processes

2.

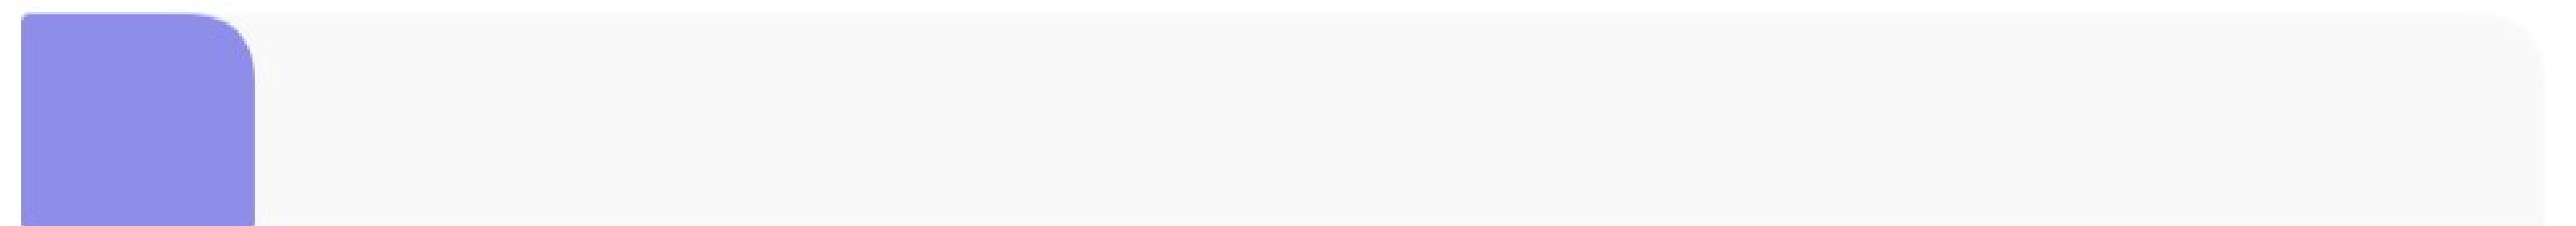

Research

3.

4.

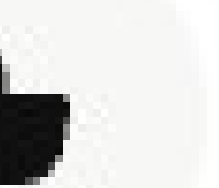

It helpful and inspiring to see other designer work first hand

Strongly disagree

Strongly agree

47

It helpful to see other design students project work?

0 questions

0 upvotes

Would you like more session with BA3 students and graduates?

What topics would you most like to talk about with graduates or other design students?

natural colour

Design process

design processes and
interesting techniques

Design process

Their inspirations and
working process

How to start a project

Essays, there processes

research, présentation
of work, career
opportunities

What topics would you most like to talk about with graduates or other design students?

Their inspirations and developments

Professional practice and interpreting design work with the world both socially and environmentally

life after graduation

How they found their personal design/development styles and different ways in which briefs are interpreted

Ideas and how they're developed into smaller ones

past work

Careers

their design process and how they got into certain placements, volunteering / any other experiences

What topics would you most like to talk about with graduates or other design students?

conceptual ideas and
the importance of them

design progress and
concept

Process & sketchbook
making

Nothing specific

Not sure

reuse new future

Process of design

how they made decisions.
see their sketchbooks. what
they're doing now

What topics would you most like to talk about with graduates or other design students?

how to develop stronger ideas

About their design development process

how to create the development and research

how to develop your work at a high level

How to doing some research

Career

Ideas

new material sample

What topics would you most like to talk about with graduates or other design students?

how to begin storytelling

Experience

development

Process and
experimenting their work

dream

Layout of sketchbook
design and more
samples and research

how they develop their
idea

Future career planning
and personal
development

What topics would you most like to talk about with graduates or other design students?

no

How they decided what they specialized in. Do they feel restricted by only specialized in

no

Their design process and making

how to connect with my fabric and drawing

Future career planning and personal development.

their works in our same degree

There works in our same degree
